

MS Course Project Overview

Welcome to MS Course Project! We wish you a great start to your 2026 Fall semester.

Students who pursue the "Course Only" study plan must complete a MS course project. Students may complete their MS course project after completing 9 credits in their Core Courses. **Students must declare their MS course project in the first week of the semester.**

About MS Course Project

The MS course project is an individually performed project which produces a written final report documenting research, implementation, results, analysis, and mastery of the subject. We emphasize that **this is an individual project; you may not work together**. The final report must demonstrate scholarly/scientific knowledge acquired over the course of MS studies. Once the final report is submitted by the student, the instructor of the approved MS courses will submit his/her evaluation along with the completed course project report to the Graduate Committee by the end of each semester for the committee review and evaluation (Pass/Fail), which will be communicated to the students at the end of the semester, about the same time final grades are posted for all courses.

The final course project must meet the following requirements:

1. Must be an individual semester term project.
2. Must demonstrate the mastery of the subject.
3. Must demonstrate scholarly/scientific knowledge acquired over the course of their MS studies.
4. Must require significant research and implementation.
5. Must produce a written a final report documenting research, implementation, results, analysis, and bibliography

What You Need to Do

- o Declare your project here by 11:59pm MT on August 24th.
- o Submit your course proposal here by 11:59pm MT on August 31st. You are encouraged to meet with the instructor first before you submit your project proposal. Schedule an appointment by contacting the front desk.
- o Submit your final course project here by 11:59pm MT on November 30th.
- o Project requirements: [MS-Course-Project-Report-Evaluation-Form.docx](#) ↓
- o Template for project: [MS-Course-Project-template.docx](#) ↓

Projects will be evaluated, and grades will be available when final grades post.

All deadlines are **HARD DEADLINES**. You may not submit assignments late. There are **NO EXCEPTIONS**.
